Part A: Pupil premium strategy plan

Statement of intent

At Lakey Lane our aim is to ensure that we prepare every child for an exceptional life. We place a high priority on developing a child's personal, social and emotional development as we believe that this is the bedrock to high academic success.

We strive to ensure that every child has the best start to their education through high expectations, excellent teaching, an exciting engaged curriculum and a purposeful parent partnership. We believe that through a personalised approach we are able to meet children's individual needs, ensuring that every child can fulfil their individual potential, both academically and socially. In order to do this, we engage in a range of strategies to issue challenge at an appropriate level and provide support to overcome barriers to learning. We provide a rich and varied curriculum, which makes an exceptional contribution to pupils' outcomes so that children are engaged and achieve well.

High quality teaching, targeted academic support and wider approaches are adopted on a whole school level and are not only restricted to pupils eligible for the Pupil Premium. Some specific interventions and school initiatives have been made possible by allocating the Pupil Premium and/or catch-up funding. Our strategies target the individualised needs of our children in receipt of Pupil Premium, with the main aim being that these children do as well as their peers with similar starting points, who not eligible for the Pupil Premium.

We are committed to ensuring that all of our disadvantaged pupils, including those who are able, gifted and talented, receive high quality teaching in every lesson and that disadvantaged children who have 'fallen behind' their peers with similar starting points, receive regular intervention and daily support.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	There are a high number of children who enter Lakey Lane with restricted knowledge in reading, writing and spoken English when compared to age related expectations.
2	Attendance remains below national levels (including PA).
3	Parental support at home is limited. 48% of parents have English as an additional language.
4	Discussion and observations show that many of the children at Lakey Lane do not have the educational and expected early life experiences

	which affects the knowledge and cultural capital of disadvantaged pupils.
