1. STARTING POINTS

Introduction

The SEN and Disability Act 2001 extended the Disability Discrimination Act 1995(DDA) to cover education. Since September 2002, the Governing Board has had three key duties towards disabled pupils, under Part 4 of the DDA:

- not to treat disabled pupils less favourably for a reason related to their disability;
- to make reasonable adjustments for disabled pupils, so that they are not at a substantial disadvantage;
- to plan to increase access to education for disabled pupils

This plan sets out the proposals of the Trust Board of the school to increase access to education for disabled pupils in the three areas required by the planning duties in the DDA:

- increasing the extent to which disabled pupils can participate in the school curriculum;
- improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services;
- improving the delivery to disabled pupils of information which is provided in writing for pupils who are not disabled

It is a requirement that the school's accessibility plan is resourced, implemented, reviewed and revised as necessary and reported on annually. Attached is a set of action plans showing how the school will address the priorities identified in the plan.

1A The purpose and direction of the school's plan: vision and values

We aim to value the individuality of all of our children. We are committed to giving each child at our schools every opportunity to achieve the highest of standards, to ensure that all children are happy, involved and engaged in all areas of the school. We will ensure that every child is treated as a special, unique individual who has the potential to shine. We will work together to make sure children feel safe, secure, cared for and appreciated for being themselves.

In working towards this, we aim to:

- provide a structured, caring, learning environment, using those experiences which children bring to school
- form positive partnerships between home, school and community
- prepare children for living in a multicultural society and build upon the strengths of cultural diversity
- provide equal access to a curriculum which promotes pupils' spiritual, moral, social and cultural development
- to deliver a curriculum which aims to provide opportunities for all pupils to learn and to achieve
- prepare children for their future role in society developing their knowledge, skills and attitudes

1B Information from pupil data and school audit

Lakey Lane Primary School is a 2 form entry primary school, catering for 420 pupils, aged 3 to 11. Around 18% of the children have been identified as having Special Educational Needs or a Disability. All staff have experience of working with children with Special Educational Needs and a range of continuing professional development opportunities are made available to further develop expertise. The school has a Welfare Team who receive regular specialist training in order to fully meet the needs of children with disabilities.

1C Views of those consulted during the development of the plan

Lakey Lane Primary School actively uses consultation and a working party approach, with an ongoing cycle of consultation for all stakeholders. Specific groups are asked about issues which are pertinent to them. This plan has been written in consultation with parents, staff and external agencies working with the school and pupils.

3. MAKING IT HAPPEN

3A Management, co-ordination and implementation

The School's Accessibility Plan will be presented to the Academy Committee for approval. It is a three year plan that will be reviewed annually by the Senior Leadership Team.

Progress will be reviewed by considering the following questions:

- Have we done what we said we would?
- Has it had any impact?

This will be reviewed by the Trust Board and the plan will be revised as necessary during its lifetime.

The lead responsibility for the implementation of the plan will be the Head of School, Deputy Head and members of the Senior Leadership Team although other individuals may have responsibilities, as outlined in the plan. Details of the resources (financial and human) required to successfully carry out the actions are detailed in the plan, along with timescales.

3B Making the plan available

The School's Accessibility Plan will be available on the website.

Hard copies of the Plan are available on request from the school office.

This Plan describes how the school is meeting these statutory duties and is in line with national guidance. It includes information about how the school is complying with the Public Sector Equality Duty and also provides guidance to staff and outside visitors about our approach to promoting equality.
